Chairman's Message

Dear Friends,

With the fond memories and a successful participation of K 2007, we, at Prasad Group, are now looking forward to K 2010.

As one of the India's largest manufacturers of Plastic Auxiliary Equipments, we greet all the participating companies exhibiting their products and services as well as the visitors of the Exposition.

Our International collaborations with leading European Companies have enabled us to establish a strong base in the International market. The collaboration with Ariostea, an Italian material handling solution provider, has been instrumental for us in providing holistic plastic auxiliary equipment solutions.

K-Plastics & Rubber Exhibition, one of the foremost events worldwide, provides an opportunity to manufacturers and suppliers of plastic and rubber products and machinery to exhibit their products and services internationally. Organized by Messe Dusseldorf GmbH, this 8-day event, to be held at Dusseldorf Exhibition Centre, Nordrhein-Westfalen, Germany, is expected to witness participation of more than 3000 exhibitors from around the world.

K 2010 brings the global plastic industry under one roof. The exhibition enables us to display our innovative and customised products to an international audience. It will be a great opportunity for us to hold cordial interactions and offer product insights to all visitors.

Looking forward to meeting you at K 2010.

Warm Regards,

Prakash Shah
