

Prasad at Propak 2019, Nigeria

Prasad team at K'19 with partners

Chairman's Message

Dear Friends,

This time in K-2019 show, we observed that the focus was on circular economy & recycling and has received huge attention. As you know, earlier the focus used to be on Technology & Material solution addressing mainly product functionality & cost. In fact this shift was very much expected.

This shift in focus, which is witnessed in K 2019, is a proof that global industry has taken note of the 'Climate Emergency' drawing attention to the impending crisis.

The Plastic Industry is treading a collaborative path with regulators & civil societies for sustainable growth. As we all know, Plastic has unique advantage to offer solutions that have low energy, water & material foot prints. With focus on recycling & reuse, these capabilities get enhanced further.

We at Prasad Group with the help of our European partners have developed & implemented ancillaries & system to adopt & automize recycling.

Friends, I am taking this opportunity to thank you for your visit to 'Prasad Pneucon Solution' and our overseas partners booth at K-2019.

Best Wishes.

Warm Regards,

Prakash Shah
Chairman

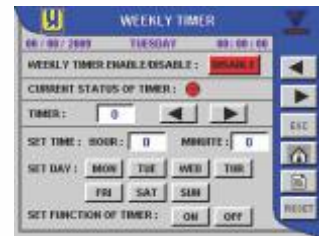

Dehumidified Air Dryer

A crystal clear bottle and an elegant dashboard of a car. A food-safe jar and a rugged transmission gear - engineering plastics have evolved to cater all areas of life. These plastics have one process at their core which contributes to maximize their functionalities like clarity, finish, modulability, strength etc.

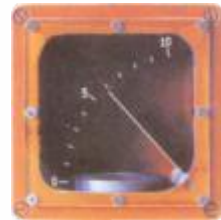

That process is 'DEHUMIDIFICATION' - the forceful extraction of moisture trapped deep within the plastic granule.

Applications: • PET Recycling • Box Strapping • PET Sheet line • Thermoforming • Polyester Fibre

Salient Features:

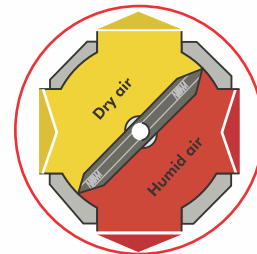

24/7 Schedule Programme

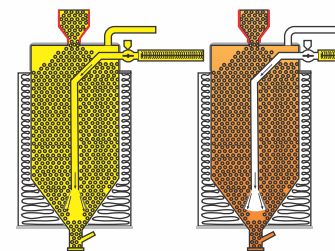

Flow Meter

Large Cleaning Access Door

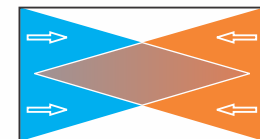

4/2 Divertor Valve

Energy Saving Design

Dew Point Meter

Heat Exchanger

Output based Flow Control through VFD

Controlled Air Flow • -50° C Dew Point
Unique PET Design • 5.7" Touch Screen

With proven mastery over Dehumidification since last 20 years, Prasad offers a unique design of Dehumidifiers.

Havells India Limited is the country's leading Fast Moving Electrical Goods (FMEG) and consumer durable manufacturer with strong presence across the country. The company is a great example of 'Make in India' as it produces over 90% of its products in-house across its 13 state of the art manufacturing plants located in Alwar, Baddi, Faridabad, Haridwar, Neemrana, Sahibabad, Ghiloth and Guwahati. The company owns some of the most prestigious brands in the electrical and consumer durable industry namely, Havells, Crabtree, Standard and Lloyd.

Havells extensive network of over 10,000 dealers and distributors and over 550 brand shops works to its advantage in reaching the farthest corners of the country.

Havells also has the unique distinction of being the only water positive company in the Indian Electrical Industry and also is the 6th most sustainable company in its sector globally as ranked by DJSI (Dow Jones Sustainability Index).

Mr. Amitabh Ranjan Sinha
Senior General Manager
Havells India Limited

We are associated with Prasad group since year 2004. Whenever it comes to expansion of our any manufacturing facilities, Prasad Group is one of the name immediately comes to our mind for any Auxiliary Equipments & Automation Solution. This is because whatever they have supplied to us till date has worked up to our satisfaction. Best part of Prasad Group is their efforts for Pre-Sales and After-Sales . They have strong skills in Project Executions with the right selection of equipments as per process requirements. Prasad team has always worked with us as if they are part of our team. This makes lots of difference for any buyer.

Up till now we have installed Prasad group product like Large to Mid Size Centralized Dehumidified Air Dryers, Central Conveying Systems for material handling of our various raw materials, Silo & Silo Feeding System, Material Storage Bins with All Metal Separators, Online & Offline Granulators, Mould Temperature Controllers, Central Chilling Plants, Conveyor Belts with online sprue separators etc. for our MCB, Switch Gear, Electrical Engineering etc. All their equipments are working since long time with satisfactory performance.

Prasad team has conducted time to time training of our team and has build up confidence of our team to the extent of selecting, maintaining and optimizing their product to get best output & results.

I take this opportunity to thank them and wish them best of business in coming future.

Celebrating 75th Birth day of our Chairman, who believes in 'Giving something back to the society'

ORGANISATIONS WHICH ARE GIFTING SMILES TO MILLIONS THROUGH VARIOUS ACTIVITIES SINCE DECADES

JYOTIRMAY IS A UNIQUE EVENT TO IGNITE SPARK OF GOODNESS. Jyotirmay aims at bringing all those who hold the power to transform lives shoulder-to-shoulder with these organizations and amplify their efforts in order to extend their reach and transformative efforts.

A GREAT OPPORTUNITY TO CONNECT ALL AT ONE PLACE.

Celebrating Navratri - The longest dance festival.
