invitation

PRASAD GROUP

cordially invites

you to visit

Stall : M2, Hall : 4

PLASTINDIA 2009

Pragati Maidan, New Delhi

February 4 - 9, 2009

From the Chairman's Desk

Dear Friends,

This year marks the silver jubilee of Prasad Group. It gives us a sense of satisfaction that we have built an organization which sets new benchmarks year after year. Yet, there is much more to do, much more to achieve. Prasad Group will continue to offer innovative and cost-effective solutions, and adhere to its motto 'Economy through Automation'.

We have been participating in Plastindia since 1997. This fifth participation of Prasad Group will bring on display equipments with more than 25 leading machine manufacturers.

Prasad Group will be displaying machines through its global partners Koch-Technik, GWK, Wemo, Crizaf and technical collaborators Moditec, Rapid and Ariostea. Our team of technical experts will be present to take you through the displayed machineries. We wish you a wonderful time at the exhibition.

Prasad Group seeks to provide fresh impetus to innovation, to further its position in the global market by exceeding client requirements. We hope to play a critical role in the development and progress of the industry, this year and in the years to come.

Thanking you,

Prakash Shah

Inspiration...

The future depends on what we do in the present.

- Mahatma Gandhi

Look into the future. Let it guide the present, then focus. Every effort will release more energy.

*- Sumantra Ghoshal
(Management Guru)*

The Funny Bone

There's a story about a manager interviewing three prospects, a mathematician, a physicist and an accountant. As a final question he asks each one what is two plus two.

The mathematician replies "Well, assuming we are talking standard base 10 arithmetic, I'd say 4". The physicist replies "Well, ignoring effects of relativity, I'd say 4". The accountant gets up, walks over and closes the door, then comes back and whispers in the manager's ear "How much would you like it to be?".

economy through automation

**PRASAD
GROUP**

1984 - 93

- Began operations with manufacturing plastic auxiliary and post extrusion equipments for Klockner Windsor India Ltd.
- Manufactured mono layer film plant PP500 and PP750 (Polypropylene and HM) for Klockner Windsor India Ltd.
- Manufactured Nitride screws for extrusion and injection moulding machines

1994 - 98

- Technical collaboration (in 1995) with Koch-Technik, Germany for manufacturing plastic auxiliary equipments - Dosing, mixing, conveying and drying systems
- Joint Venture (in 1996) with Koch-Technik, Germany
- Joint Venture (in 1998) with GWK, Germany to manufacture chiller and mould temperature controller
- Technical collaboration (in 1998) with Moditec, France to manufacture low-speed, high torque granulator, 'Goliath'
- 1st plastic auxiliary equipments manufacturer in India, to obtain ISO 9001:2000 quality certification
- 1st largest installation of central chilling system at Visteon Automotive (A division of Ford Motors India Ltd. - Chennai)

1999 - 03

- Supplied 1st central conveying system to Essel Packaging Ltd., Wada
- Shifted to new facility with an area of 15,840 sq. mts.
- Supplied 1st high-tech 'Goliath' twin granulator to Balmer Lawrie-Vann Leer Ltd., Mumbai
- Set-up new facility for GWK with modern insulated factory and pre-fabricated structure

2004 - 08

- Technical collaboration (in 2005) with Crizaf, Italy
- Joint Venture (in 2006) with Wemo Automation AB, Sweden to manufacture robots for plastic industry
- Technical collaboration (in 2007) with Rapid Granulator AB, Sweden
- 1st Robot installed on Injection moulding machine, Havells India Ltd., Baddi
- Technical collaboration (in 2008) with Ariostea, Italy to manufacture bulk material handling systems, PVC and all powder conveying

and the journey continues...

Prasad Solutions **live** to be displayed at Plastindia 2009

with following reputed machinery manufacturers

Extrusion Technik

FERROMATIK
MILACRON

J P Industries

JAGMOHAN

LOHIA
